Peer Group (5-95%): Separate Accounts/CITs - U.S. - Allocation--70% to 85% Equity

Portfolio Construction

The Aggressive Fund is an asset allocation fund whose primary objective is capital growth. The Fund is invested in a diversified mix of underlying vehicles including mutual funds, ETFs, stable value and other pooled funds. The Aggressive Fund typically invests 90% of its assets in equities, a portion of which is allocated to international equities and real estate, and 10% in bonds, a portion of which is allocated to international bonds, stable value funds, and cash vehicles. Tactical changes may be made to take advantage of valuation opportunities from time to time. To ensure the Fund's strategy remains consistent, the allocation may be rebalanced when it deviates significantly from strategic targets. Investors in this fund should be willing to accept significant fluctuation in value and be able to tolerate the market risk that comes from the volatility of capital markets.

The underlying investments will use a combination of passive and active strategies and will be evaluated on a regular basis.

Investment Philosophy

Each of the Managed Retirement Funds seeks a competitive return for its investment style. The Managed Retirement Funds are collective investment funds that will invest primarily in U.S. and foreign stocks, bonds, and cash equivalents primarily through mutual funds, bonds, fixed-income investments and money market accounts.
